OUR CORE SERVICES

We offer reliable and comprehensive engineering services focused on repair, maintenance, and performance optimization of heavy machinery and industrial systems.

- **Engine, Hydraulic & Transmission Repair**
- **Electrical & Control System Diagnostics**
- **Preventive & Routine Maintenance**
- **Welding, Fabrication & Structural Repair**
- **Component Replacement & System Upgradation**
- **Complete Equipment Overhaul**

INDUSTRIES WE SERVICES

Construction	– Excavators, Bulldozers, Cranes, Loaders
---------------------	---

Mining	– Haul Trucks, Crushers, Drills
---------------	---------------------------------

Agriculture	– Tractors, Harvesters, Combines
--------------------	----------------------------------

Industrial	– Plants, Machinery, CNC Systems
-------------------	----------------------------------

Transportation	– Heavy Trucks, Rail Systems
-----------------------	------------------------------

Aviation & Aerospace	– Aircraft Systems & GSE
---------------------------------	--------------------------

Oil & Gas / Energy	– Rigs, Pumps, Turbines
-------------------------------	-------------------------

OUR HYDRAULIC MANUFACTURERS

HYDRAULIC POWER PACK

We manufacture reliable hydraulic power packs for efficient and smooth industrial operations.

HYDRAULIC CYLINDER

We manufacture durable hydraulic cylinders designed for smooth performance and reliable operation in various industrial applications.

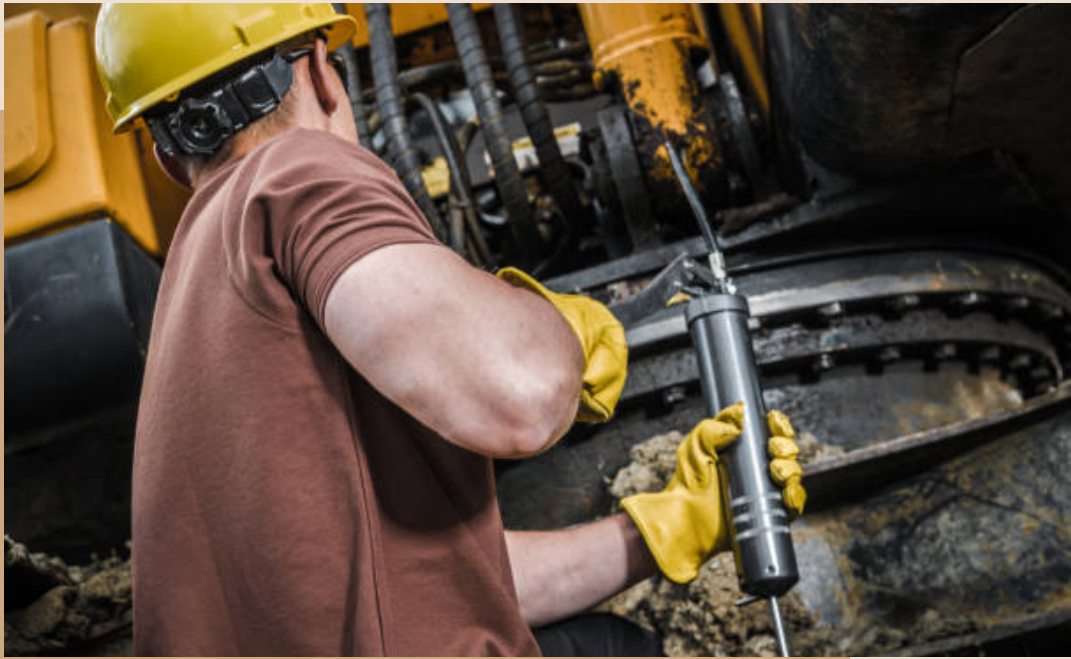

HYDRAULIC HOSE PIPE

We produce strong and reliable hydraulic hose pipes built for efficient fluid flow and long-lasting performance in demanding applications.
